#### DESCRIPTION

The 't' designation in this variation on the 38V refers to its use as a table light. The table light has a 2290mm (90') long flexible cable with dial control for on/off/dimming. There is notch on the back of the pendant base and dial control for wall mounting.

38V is a variant of the original 38 series where a large glass sphere is blown with a multitude of haphazard interior cavities, which intersect and collide in unpredictable ways. 38V is smaller, lighter and suspended with coaxial cables. The interior cavities can be filled with plants or left empty.

Standard 38V are made with clear glass exterior spheres and milk white interior lamp holder cavities.
